ZIPLINER | MOBILE / STATIONARY / COMBOS

Multiple Riders Zip up to **1,500 feet** on VR's stationary version

2 Riders Zip up to **450 feet** on VR's mobile version

ZIP ANYWHERE!

ZipSTOP™ Brake features

- Brake participants safely at high velocities
- ZipSTOP™ uses a self-regulating magnetic braking system (Eddy current braking technology) to decelerate participants safely and no abrupt jerking at the end of the ride.
- The ZipStop™ is connected to the brake trolley through a pulley system. As the rider reaches the brake trolley, the ZipStop™ engages to create a safe and comfortable decelerated speed for the rider.

VR'S NON METALLIC ZIP LINE CABLE
ONLY REQUIRES 50% OF THE TENSIONING
OF TRADITIONAL STEEL ZIP LINE CABLES

ZipLiner™ features

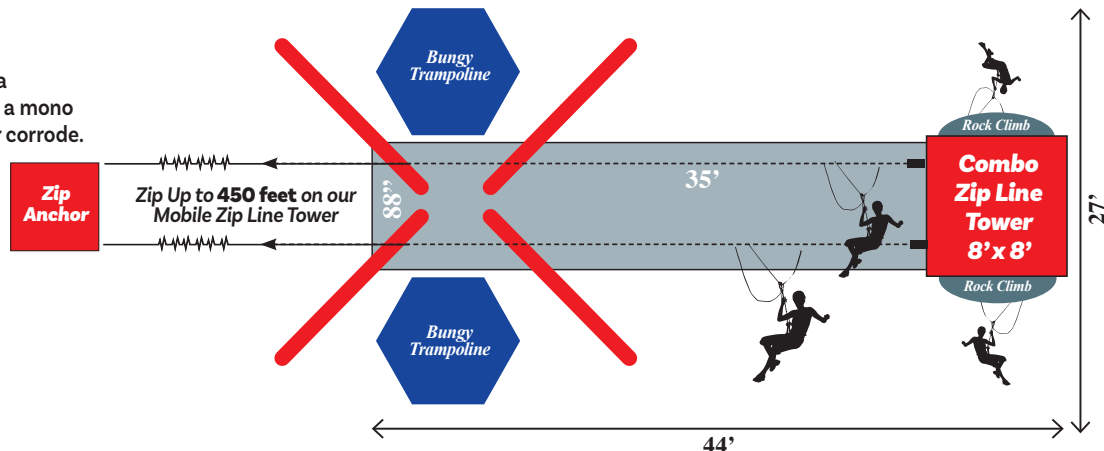

- VR's ZipLiner™ is the first U.S. company to use a **NON-METALLIC** Zip Line Cable. It is made from a mono filament polymer plastic, so it will never rust or corrode.
- We recommend replacing your existing steel ziplines with VR's Zip Line Cable which will significantly reduce strain on trees and structures.
- Adjustable Lengths up to 1,500 feet
- VR's Zip Line Cable completely retains its elastic memory and elongation capacity for the life of the cable.

ZIPLINER™ BUSINESS PROFILE / ROI

Employees Required for Set Up / Time	2/2 Hours
Employees Required to Operate	3 to 4
Avg. Number Hours Per Day	6 hours
Length of Time Per Customer	2 minutes
Avg. # of Customers Per Hour	60 - 120 per hour
Avg. Charge Per Customer	\$10.00-\$20.00
Potential Hourly Income	\$1,000-\$2,400
Potential Daily Income	\$6,000-\$14,400
Potential Prepaid Rental Per Hour/Day	\$900/hour - \$5,400/day

Additional ZipLiner™ features

- VR's Zip Line Cable operates in all weather conditions: UV Stable, water, sun, frost etc.
- Easy to install and operate | Low operational and maintenance costs
- Brake automatically resets
- ZipSTOP™ Brake ensures a smooth transition at the end of the zip ride
- Rider Weight Range: 33 lb (15 kg) to 270 lb (125 kg)
- The ZipSTOP™ is easy to operate, has no down time due to weather and provides consistent braking for a wide range of rider weights

SNOWGLOBE | MOBILE / STATIONARY

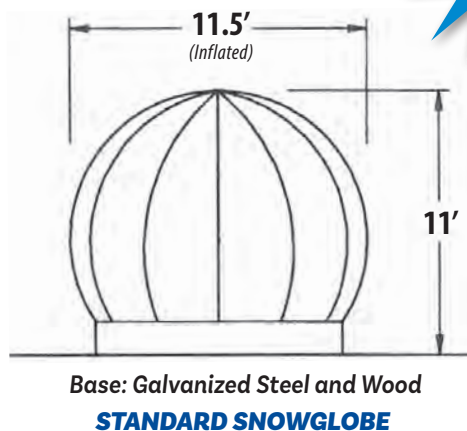

**Indoor or Outdoor.
Mobile, Portable
and Stationary.**

Add Signs and Props

**Customize and Change
Backdrops for Any
Theme or Season!**

**Interchangeable
Velcro
Backdrops!**

**Any Theme
Any Season**

**The VR SnowGlobe is a Year-Round Photo
and Branding Opportunity!**

Transform your venue for any Season, Holiday or Event.

The standard SnowGlobe can be moved to any event location and then remains stationary for the duration of the event. The SnowGlobe can then be collapsed / folded like a roll-away-bed and then moved using the attached caster wheels.

The optional transport trailer allows one person to deliver and set-up the SnowGlobe which can be towed by almost any vehicle equipped with a hitch.

All SnowGlobes come with an aluminium telescopic safety support pole, which is always rigid (to prevent collapse during participant exchange) steel base, wood platform, blower, decorative skirt, steps, 1 backdrop with zipper, (two) 2-horsepower blowers, 2 bags of snow and the SnowGlobe operations manual.

VERTICAL REALITY PARTS AND SERVICE

Hydraulic Auto-Belay

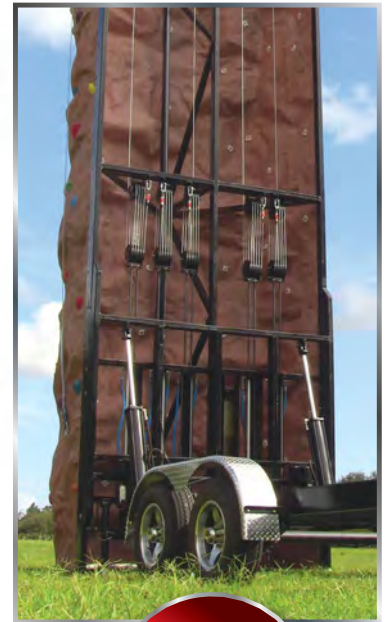

**VR's Auto-Belay System can be Sold Separately
For installation on pre-existing climbing walls.**

Vertical Reality uses the term “auto-belay” to describe its automated hydraulic belaying system

- Automatically controls the rate of descent without effecting the rate of ascent
- Participant climbs at their own pace
- Eliminates the need to rely on a human belayer for every climber which in turn decreases labor costs

Vertical Reality is globally recognized and approved by ASTM (American Society for Testing and Materials). We are considered to have the safest, most advanced, user-friendly Auto Belay designs.

**Order VR parts from
our online store:

Vertical Reality's attractions are continuously tested and evaluated to maintain the highest level of quality and safety. With over 6,000 customers served since 1994, our mission is still to create the safest, most exciting, durable and competitively priced attractions in the extreme entertainment and amusement industry.

Vertical Reality is committed to customer service and safety

We spend considerable time getting to know our clients' full potential. We walk each client through every step of the purchase, from financing and insurance to training and marketing.

Most customers rely on our in-house transport, therefore expert training by an experienced Vertical Reality technician is included with every delivery.

Buying direct from Vertical Reality at wholesale prices ensures excellent delivery and distribution time to North and South America, The Caribbean, The Middle East, Europe, Africa and Asia.

VR offers profit share opportunities to Zoos, Aquariums, Resorts, Sport Complexes, Time Shares, Amusement Parks, FEC's and many more locations that offer a high trafficked venue.

Protect Your Investment

All Vertical Reality equipment is Hot-Dip Galvanized. Hot-Dip Galvanizing is the most effective way to protect steel from corrosion. This process not only provides a high quality surface finish that extends the service life, but also maintains the integrity and appearance of steel products over time.
