

VERTICAL REALITY  
FROM VISION TO  
**REALITY**

**VERTICALREALITY.COM • 877.632.6444**

## **BUY DIRECT FROM VERTICAL REALITY AT WHOLESALE PRICES.**

Buying direct from Vertical Reality lowers costs, improves delivery and distribution time, especially to the U.S., The Middle East, Europe, Africa and Asia.

VR also offers PROFIT SHARE opportunities to Zoos, Aquariums, Resorts, Sport Complexes, Time Shares, Amusement Parks, FEC's and many more locations that offer a high trafficked venue.

**COMBINATIONS OF ALL  
VERTICAL REALITY PRODUCTS  
ARE AVAILABLE**

Vertical Reality's owned and operated attractions are continuously tested and evaluated to maintain the highest level of quality and safety. With over 6,000 customers served since 1994, our mission is still to create the safest, most exciting, durable and competitively priced attractions in the extreme entertainment and amusement industry.

### ***VERTICAL REALITY IS COMMITTED TO CUSTOMER SERVICE AND SAFETY***

We spend considerable time getting to know our clients' full potential at each location. We walk you through each step of your purchase, from FINANCING and INSURANCE to TRAINING and even HOW TO MARKET!

Most customers rely on our in-house transport, so that expert training by an experienced Vertical Reality technician is ALWAYS included with every delivery.

### ***PROTECT YOUR INVESTMENT***

Every Vertical Reality product comes with one steel substructure protection option. Choose between Hot-Dip Galvanizing or Industrial Epoxy coating (primer) with Industrial Polyurethane Paint (color top coat). Hot-Dip Galvanizing (recommended) is the most effective way to protect steel from corrosion.

This process not only provides a high quality surface finish that extends the service life, but also maintains the integrity and appearance of steel products over time.

Powder Coating is also available for an additional fee.

# BUNGY TRAMPOLINE | MOBILE / STATIONARY

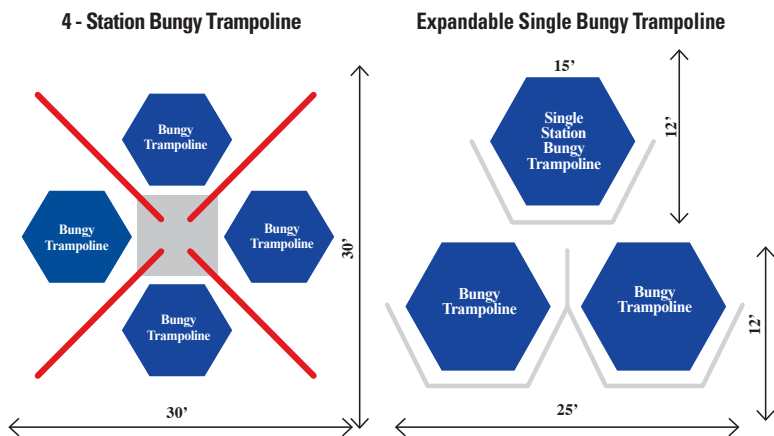

## Included features:

- Hot dipped galvanized steel structure
- Heavy duty 14" Mag Wheels
- Electric Brakes
- Detachable single axle trailer
- Aluminium diamond plate fenders
- Light weight split aluminum pole design
- Simple storage brackets for quick and easy tear-down.
- Easy Pole Lift system

## Options:

- Anodized colored aluminum poles
- Fence racking
- Tool box

## 4 Station Mobile Bungee Trampoline

- Hot dipped galvanized base frame.
- Hot dipped galvanized single axle trailer.
- 3500 lb axle with electric brakes and aluminum wheels.
- Hot dipped galvanized removable trailer tongue.
- Heavy duty dual caster dolly wheel tongue jack.
- 4 Hot dipped galvanized swing out support arms.
- 4 Heavy duty 7000 lbs side wind jacks for swing out support arms.
- 4 CNC machined aluminum swivel bases.
- 4 CNC machined dolphin ends for 21 ft Poles.

## Includes all gear:

- 8 Galvanized 1/4 inch support cables with turnbuckle, 8 steel carabineers, 8 quicklinks.
- 4 Bongos (inflatable trampolines) with blower.
- 4 jump harnesses.
- 4, 21 foot long, split aluminum poles w/ eyebolts & pins
- 4, 120 volt winches with winch rope & brackets
- 32, 20 pound bungee power cords
- 16, 10 pound bungee power cords
- 4 Jump Rope Sets Includes rigging with swivels, pulleys and carabineers

Vertical Reality's **Easy Pole Lift System** ensures safe, quick and easy set-up and breakdown times.

The electric winch hoists the Bungee pole into place safely and securely. The pole is then pinned into position to a ground mounted steel support arm.

# ZIPLINER | MOBILE / STATIONARY / COMBOS

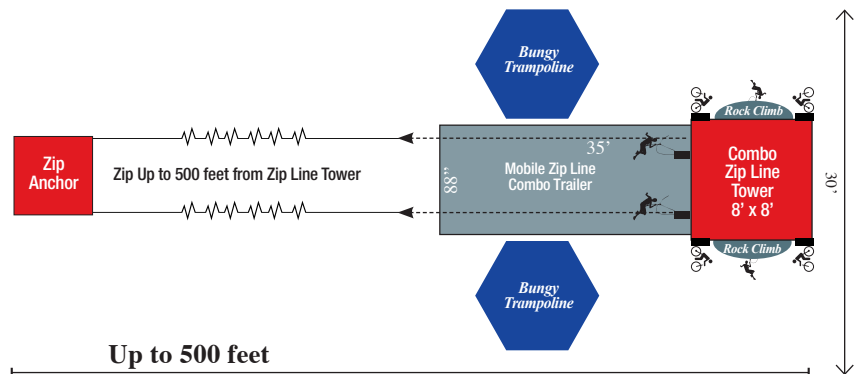

Multiple Riders can Zip at the same time on VR's stationary models

2 Riders can Zip at the same time on VR's mobile versions

## ZIP ANYWHERE!

## ZipLiner™ Features:

- ZipSTOP™ Magnetic Braking Device with Brake Trolley that automatically resets
- Automatic Return Device brings trolley and lanyard back to the top of Launch Platform Tower which significantly increases throughput
- ZipLiner Trolleys
- Adjustable Full-Body Harnesses w/ lanyard
- Attendant controlled Launch Platform Safety Gates
- Operator Harness with fall protection device
- 2 Station Mobile Adjustable Anchor
- Mobile version 90-minute set up
- Up to 50 riders per hour per station
- Multi-Zip riders simultaneously
- Redundancy is built into every component
- Adjustable Length Zip Lines
- Brake **Redundancy**
- Zip line **Redundancy**
- Trolley **Redundancy**
- **ADD Vertical Bike**

### ZIPLINER™ BUSINESS PROFILE / ROI

Potential Prepaid Event Rental Income Per Hr/Day	\$900/hr - \$5,400/day

# ZIP LINER | ANCHOR / BRAKE / NON-METALLIC ZIP CABLE

## ZipLiner™ Anchor

Adjustable length Multi-Station Zipliner anchor for mobile and stationary versions.

### Features:

- Mobile Anchor and Launch Tower set up in 90 minutes
- Adjustable Lengths
- Multiple patents and trademarks pending
- Mobile Anchor conveniently piggy backs on the ZipLiner™ trailer and requires no additional anchoring.
- Custom design for any static location

With the ability to brake participants safely at high velocities, the ZipSTOP™ fills a critical need for any zip line operation. The ZipSTOP™ uses a self-regulating magnetic braking system to brake zipline participants safely and comfortably with no abrupt jerking.

The ZipStop™ is connected to the brake trolley through a pulley system. As the rider reaches our brake trolley, the ZipStop™ engages to create a safe and comfortable deceleration for the rider.

## ZipSTOP™ Brake

- Operates in all weather conditions
- Eddy current braking technology
- Easy to install and operate
- Controlled braking distances
- Low operational and maintenance costs
- Automatically resets the brake
- ZipSTOP™ Brake ensures a smooth transition at end of zip ride
- Rider Weight: 33 lb (15 kg) to 275 lb (125 kg)
- The zipSTOP is easy to operate, has no downtime due to weather and provides consistent braking for a wide range of rider weights.
- Models available up to 45mph.

## ZipLiner™ Cable

- Vertical Reality's ZipLiner™ is the first and only company that uses a NON-METALLIC Cable. Our cable is made from a mono filament polymer so it will not rust or corrode.
- ZipLiner™ Cable requires only half the tensioning of traditional steel zip line cables.
- If you currently own a Zipline, we recommend replacing your lines with our interwoven plastic polymer cable.
- Replacing your steel cable with ZipLiner's™ cable will significantly reduce strain on trees and structures.
- Our cable completely retains its elastic memory and elongation capacity for the life of the cable.
- ZERO noise pollution
- Excellent performance under all atmospheric conditions: UV Stable, water, sun, frost etc.
- No friction. Vibration-free cable prolongs the life of all ZipLiner's™ components.

**OUR NON-METALLIC ZIP LINE CABLE REQUIRES 1/2 THE TENSIONING OF TRADITIONAL STEEL ZIP LINE CABLES!**

- Full Combo set up only requires 6 to 9 operators
- **Vertical bike**

# ROCK CLIMBING WALLS | MOBILE / STATIONARY

Vertical Reality's custom designed Auto-Belay system and Real Rock-like profile makes the rock climbing experience safe and challenging for the participant.

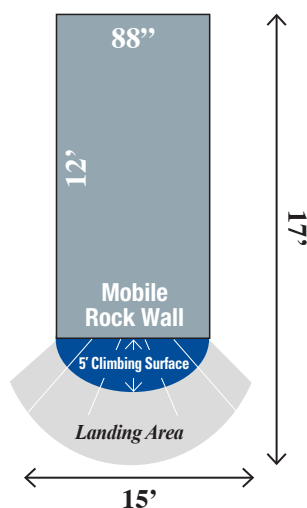

We provide a variety of options when it comes to selecting the perfect climbing wall for your facility or business.

We offer an extensive range of either mobile or stationary climbing systems that can be designed to any height, width and budget.

Stationary systems come equipped with an A-Frame that can be anchored to a concrete pad or counter balanced in a free-standing environment.

**Operational Footprint**  
Mobile Rock Climbing Wall with Trailer. 15' wide x 17' deep

# ROCK WALL COMBOS / OPTIONS

## CLIMBING OPTIONS

## HYDRAULIC AUTO-BELAY

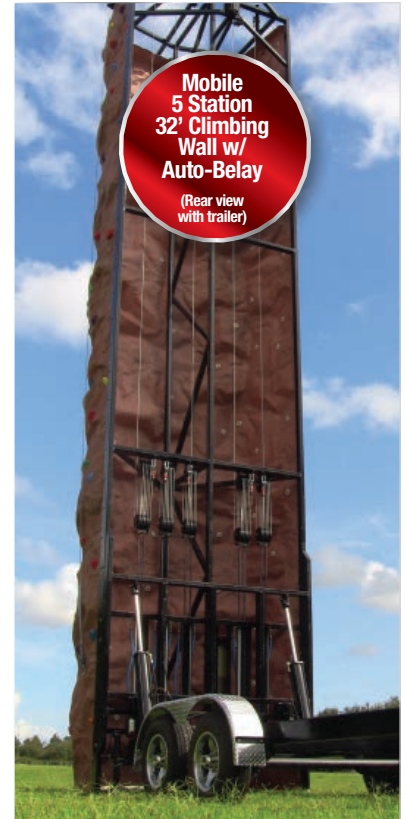

Vertical Reality uses the term “auto-belay” to describe its automated hydraulic belaying system which incorporates a pressurized air over oil hydraulic reservoir tank that automatically controls the rate of descent without effecting the rate of ascent.

The participant climbs at their own pace. Our system eliminates the need to rely upon a human belayer for every climber which translates into significant labor savings!

**Vertical Reality is globally recognized and approved by ASTM (American Society for Testing and Materials). We are considered to have the safest, most advanced, user-friendly Auto Belay designs.**

Vertical Reality's Auto-Belay designs are currently utilized in many applications and locations such as: Six Flags, ESPN, Cirque Du Soleil, Universal Studios and many other satisfied customers around the world.

- All Vertical Reality Climbing Walls come standard with a 12-month warranty.
- 24-hour call center to address all of your service questions.
- Vertical Reality offers professional annual maintenance plan contracts by certified Vertical Reality Technicians.
- Maintenance plans include cable replacement and on-site hydraulic inspections.

VR's  
Auto-Belay System  
can be  
**Sold Separately**  
For installation on  
pre-existing climbing walls.  
Dual Air Cylinder design for  
built-in redundancy  
on every climbing  
station

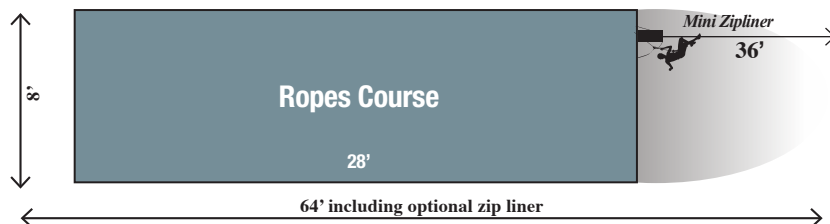

Opaque composite  
hydraulic air / ISO 32  
non-toxic oil pressurized  
tank with pressure gauge  
and air valve

# ROPES COURSE | MOBILE / STATIONARY

With the addition of a Ropes Course attraction, Vertical Reality has expanded the range of activities offered. You can even add a Mini ZipLiner™ as an exciting finish to any course. By using a continuous overhead belay system, our ropes courses are safer and yield a higher throughput.

The participant is safely harnessed to a lanyard (safety line), that is attached to a continuous overhead belay system while maneuvering through different challenges. The lanyard is set up in such a way that if the participant loses their footing, they will only drop a few inches and can easily and quickly step back on the activity to continue. The mobile version allows for set up at almost any venue.

- Professionally engineered and designed for safety
- Great for team and confidence building
- Incredible spectator value
- Appeals to a wide age range
- High capacity, over 120 guests per hour
- Hydraulic lifting mechanism on the mobile version sets up in just 60 minutes.
- Continuous overhead belay system means smooth trekking between elements and eliminates the need for unclipping

## ROPES COURSE BUSINESS PROFILE / ROI

Employees Required for Set Up /Time	2/60 minutes
Employees Required to Operate	3 to 4
Avg. Number Hours Per Day	6 hours
Length of Time Per Customer	5-10 minutes
Avg. # of Customers Per Hour	60-180 per hour
Avg. Charge Per Customer	\$5.00 - \$10.00

**KEEP YOUR EYES  
ON YOUR FEET!**

**TURN YOUR BUNGY TRAMPOLINE SYSTEM  
INTO A BRAND NEW REVENUE GENERATOR!  
UPGRADE / RETROFIT YOUR EXISTING  
BUNGY TRAMPOLINE SYSTEM  
WITH VERTICAL REALITY'S  
TREND SETTING **Log Roller™****

**TEST YOUR LUMBERJACK  
OR LUMBERJILL SKILLS ON THE  
**Log Roller™** BY RUNNING FORWARDS  
AND BACKWARDS WHILE KEEPING  
YOUR BALANCE TO STAY UPRIGHT.**

**CHALLENGE ANOTHER LUMBERJACK  
OR LUMBERJILL TOGETHER ON THE  
SAME LOG ROLLER OR,  
COMPETE AGAINST ONE ANOTHER  
ON A SECOND LOG ROLLER STATION**

## **HOW IT WORKS:**

The participant is first secured in a custom adjustable harness then positioned on the log by a trained operator.

The combination of an electric winch and power cords allow the LumberJack or LumberJill to stay upright while running and sprinting backwards and forwards as the log spins!

The Bungy lifting system helps position the LumberJack or LumberJill onto the log and enables them to run and sprint while trying to stay upright.

Vertical Reality **Log Roller™** systems can be mobile or stationary, for indoor and outdoor use.

## **INTRODUCING THE LUMBERJACK & LUMBERJILL LOG ROLLING EXPERIENCE**

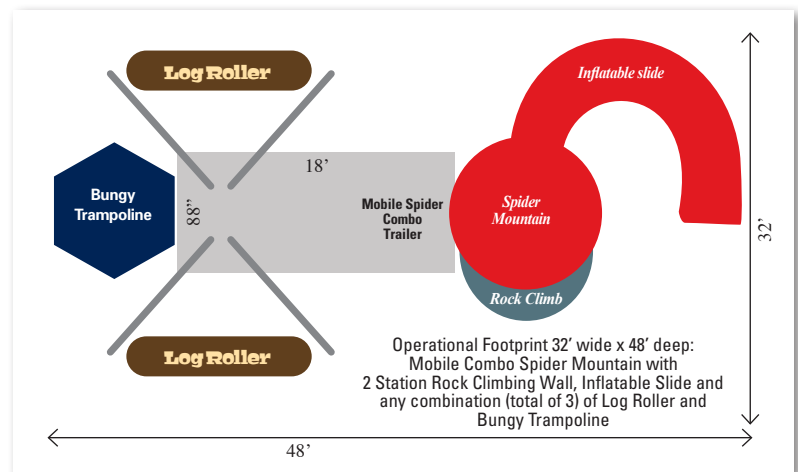

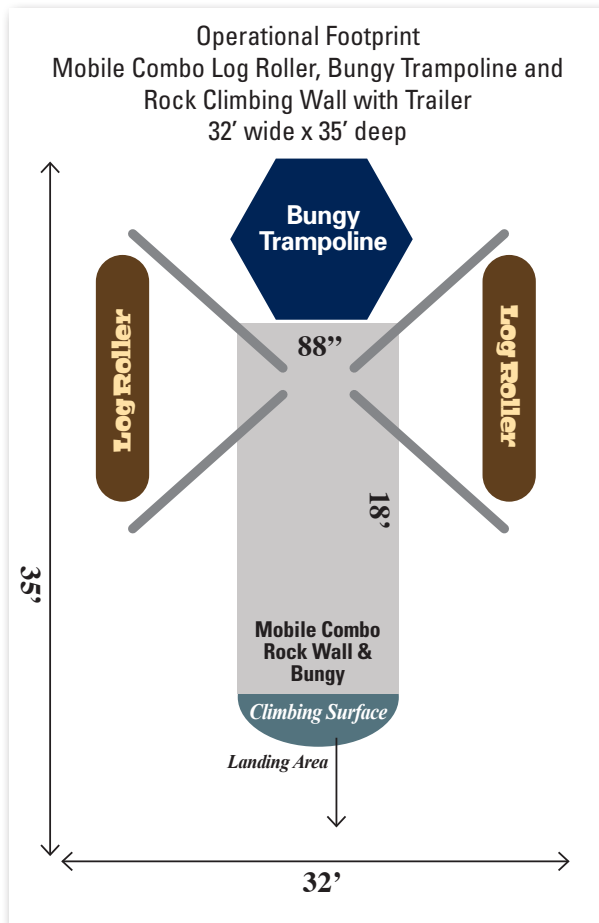

**EASILY SETS UP IN UNDER AN HOUR WITH 2 ATTENDANTS | PATENT PENDING**

# LOG ROLLER™

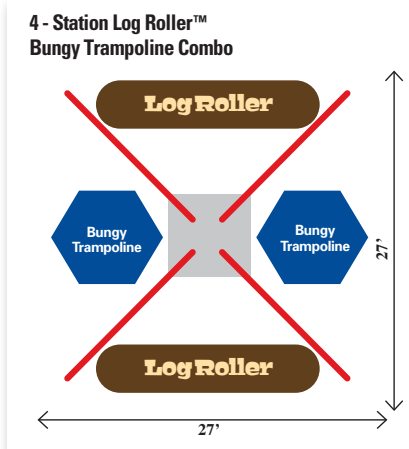

CREATE YOUR OWN  
COMBOS!

Vertical Reality's **EASY POLE LIFT SYSTEM** ensures safe and quick set-up and breakdown times. The electric winch hoists the **Log Roller™ pole** into place safely and securely. The pole is then pinned into position to a ground mounted steel support arm.

## LOG ROLLER™ / BUNGY TRAMPOLINES

- Spin and run on your own or compete against a fellow Log Roller. LumberJacks & LumberJills run atop spinning, floating logs in an attempt to stay upright before their opponent topples!
- Vertical Reality's **Log Roller™** design is a safe and accessible way for children and adults to experience all the thrills of log rolling without any of the risks.
- LumberJacks & LumberJills can race to keep upright on their own log rolling station and / or compete against a fellow LumberJack / LumberJill on a tandem log rolling station.

**VERTICAL REALITY'S
